

The Conqueror

Concreting your future
Quality concrete, flexible deliveries
Mix and Pump concrete from 1 vehicle!

NEW TO THE UK
40 machines on 3 continents

Key Features

- Unique all-in-one concrete pumping provides the delivery, mixing & pumping of concrete from 1 vehicle
- One person operation
- Batch mixed on-site, perfect concrete every time capable of conforming to BS EN 206
- Easily deal with emergency callouts, can be used for any size job on short notice
- 2x 5.5m³ Sand and Aggregate Hoppers
- 3m³ Cement Hopper
- 30m³ per hour pumping capacity
- 1500L Water Tank
- Pipe reeler complete with 60m of 3" lightweight rubber hoses

The Conqueror Specifications

Sand Hopper	5.5m ³	Pipe Reeler	60m 3" Lightweight Hoses
Aggregate Hopper	5.5m ³	Body Length	8.5m
Cement Hopper	3m ³	Body Width	2.5m
Mixer Pan	0.7m ³	Admix	2x as standard
Receiving Hopper	0.2m ³	Mix Specification	Can produce to BS EN 206
Pump	Peristaltic	Wheelbarrow	Space for 2x

Radio Controlled Pump

Thermal Printer

Hydraulic Gate Opening

Brand new to the UK is The Conqueror by IHS UK LTD. The only machine in the world that can mix AND pump concrete without the need for secondary equipment. Not only will this streamline your processes, but it will position your business as a pioneer in efficiency and versatility within the industry.

Unlike others, The Conqueror batch mixes, this means that each component is individually weighed in the mixer pan, giving precise and repeatable concrete every time. Capable of producing to BS EN 206, The Conqueror can be used without guess work, with a receipt being given at the end of the pour so the customer, and operator, know the concrete is exactly to specification.

The built in concrete pump is capable of pumping at 30m³/hr at a distance of 80m. It operates on its own hydraulic circuit and is independent of the mixer, meaning, if you owned a volumetric mixer and wanted to strengthen your fleet, The Conqueror could fully empty itself, then be used as a pump for the remaining machines.

Set yourself apart with repeatable, quality concrete, on the go!
